The School District of Palm Beach County strives to provide a safe learning environment for all students. However, accidental injuries do occasionally occur during school activities and sports. As a service to the County’s students, the School District purchases a sports accident insurance policy to assist families with some of the medical expenses that may result from a high school sports related injury. **The school sports policy has limits and may not provide 100% coverage for all medical fees and charges. The following information summarizes the sports policy provisions. This policy is not intended to and will not replace your primary insurance. This policy will supplement your primary insurance plan.**

The policy insures Senior High School student athletes and cheerleaders while they are participating in school supervised interscholastic sports practice sessions and games during the regular school term, as sanctioned or recognized by the Florida High School Athletic Association (FHSAA). Student athletes and cheerleaders are also protected during group team travel in a school district approved bus or van to and from the school and a covered FHSAA sanctioned interscholastic athletic event site. Interscholastic sports team participants would be eligible for policy benefits for covered accidents while they are participating in off-season 'conditioning' at school, during the regular school term, while directly supervised by a school coach. The policy defines 'Conditioning' as cardiovascular exercise or weight training. “Weight training” is the use of free weights and stationary apparatus. Cardiovascular conditioning is distance and interval training. “Plyometrics” is the use of pre-set conditioning programs. ‘Conditioning’ IS NOT teaching sport specific skills and drills and DOES NOT involve the use of sport specific equipment (i.e. starting blocks, hurdles, rebounders, ball machines, bats, balls, rackets, etc.). "Injuries sustained during the summer or during any open gyms/facilities or camps are not covered by this policy. Off-season practices, drills or scrimmages are not covered under this policy. The coverage is effective during FHSAA sanctioned seasons, as scheduled by FHSAA. Injuries during individual travel or travel in vehicles not owned or operated by the school are not covered by the school policy.

The School Athletic Accident policy is EXCESS INSURANCE. The policy will not allow anyone to profit by collecting duplicate benefits from several insurance sources. Any benefits that could be collected from any other insurance, PPO, HMO or other available source of coverage must pay first before parents are able to collect benefits from the school sports policy. If primary HMO or PPO coverage is available through your employer-sponsored plan, you should use the HMO or PPO approved doctors, hospitals and other providers for treatment of your child’s injuries. A parent must file a claim with any primary insurance coverage available. If you do not follow the guidelines of your HMO or PPO primary insurance networks, you will be solely responsible for paying any unpaid medical bills, or additional costs you may incur, that are not covered by the school sports policy. If you do not have any other insurance, you should review the Preferred Provider Network and ask the Doctor or facility what ‘out of pocket’ expenses you may be responsible for paying.

**INTERSCHOLASTIC SPORTS POLICY LIMITS**

POLICY DEFINITIONS AND COVERED ACCIDENTS: The Sports policy provides benefits for covered claims due to sports accidents. A “Covered Accident” is defined as a sudden, unforeseen, unexpected identifiable single event which results in accidental bodily injury to a covered athlete or cheerleader, independent of all other causes, occurring while the school policy is in force. Prolonged over-exertion or repeated injury due to non-accidental overuse is not considered a “Covered Accident”. Policy benefits for heat exhaustion or fainting is provided if either occurs during or within one hour after participation in a school sports practice session or game. Conditioning is defined as: ‘Weight Training’ meaning the use of free weights and stationary apparatus, ‘Cardiovascular Conditioning’ meaning distance and interval training, ‘Plyometrics’ meaning the use of pre-set conditioning programs. Conditioning IS NOT teaching sport specific skills and drills, and does not involve the use of sport specific equipment (i.e. starting blocks, hurdles, rebounders, pull ropes, ball machines, bats, footballs, tiles, etc.). Surgery as defined in the policy means (a) the repair of a laceration that requires sutures (b) any cutting operation, or (c) the reduction of a fracture or dislocation; (treatment of a non-displaced fracture not requiring reduction is not considered a surgical procedure).

(If a person fails to follow rules of a PPO or HMO type plan and loses benefits that could have been collected, these benefits will be classified as collectible and the school insurance policy benefits will be reduced by the amount that could have been collected from the HMO or PPO). Total payment by all collectible insurance or plans shall never exceed the total reasonable medical expense incurred.
